Typography

Helvetica is the font to be used in all printed Positive Partnerships marketing and promotional pieces for headings and pull out copy.

Arial is the font which must be used for body copy in all print and online communications. These include brochures, company presentations, websites and all electronic communications.

Calibri is the default font for Microsoft Office applications and to be used in all internal documents and workshop documents. Arial may also be used.

The Positive Partnerships colour palette consists of ten colours.

Each colour is accompanied by its Pantone®, CMYK, RGB, and Hexadecimal values in order to enable accurate reproduction of the colour across all types of media.

Important: The Pantone colour values should never be converted directly to CMYK or RGB. The CMYK and RGB values have their own unique values which better match the
Pantone colour.

The colors shown here are for illustration purposes only and should not be used for color matching.
